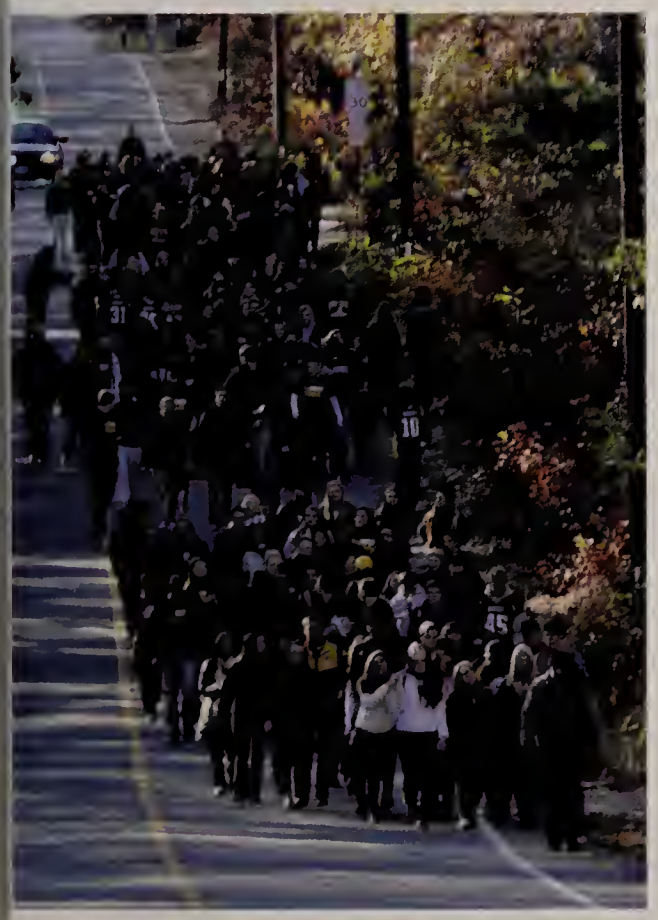
A Walk to Remember

2014 Senior Walk

After the seniors departed from the school auditorium, on the afternoon of November 5, 2013, they walked down Cable Road to Nauset Light Beach, chatting with their friends.

Students were decked out in there Nauset 2014 Senior shirts, and nostalgia hung heavy in the air. It just so happens the week of the senior photo, it was raining everyday! Surprisingly on the day of the senior walk, the sun appeared and it was beautiful. A perfect fall day for the traditional Senior Photo on the beach.



Seniors take in the beauty of the beach and realize how privileged they are (above).

A parade of Nauset Seniors head towards the beach, hand in hand (left).

"A good student is not one who doesn't makes mistakes but one who recognize their mistakes and makes sure to never let them happen again" – Dr. Edith Copely

The amount of gratitude I hold for NRHS is so much that it would require me to write a book. But I will say this: cherish the days that you are in high school, take advantage of all opportunities, stay positive, be curious, be ambitious, be independent, and stay completely true to yourself. If you do these things then you will have a solid path to success.

I don't even know how to say everything I want to say. There have been times where I wish it was all over, and times where I wish it could last forever. But high-school spun short in the span of things is such a small part of our ever-growing lives. Needless to say it has changed the way I see the world, and I am truly grateful.

Liam Bolintiam

I would like to bequeath all of my household responsibilities to Nadine Beltis as she is basically my sister, she is at my house more often than I am, and I don't do them anyways.

I'd like to say thank you to Grady M. Culhane, Nehal Nasir, Aaron Duff, and Elizabeth Bent. Also to all of the S.W.S. staff and Mr. Swiniarski for really making me feel involved in my own learning. I can't wait to head off to college and my own higher learning so that I may do what I find enjoyable for a living. Everyone tells you that these four years fly by and as a freshmen you never believe it. You think that high school will go on forever when in fact those "wise" upper classmen were right all along it really does fly by in a blink of an eye. So what have I learned, overcome, or realized in these mere four years is, 1. You will try to like the cafeteria food but you never will, 2. Procrastination is a real and serious problem and 3. Don't take it so seriously. Find friends who you love and care about, work hard but don't stress yourself (even though you always will) and enjoy the moments you have left.

Looking back on who we were before high school, I don't think we ever would have thought we would be the individuals we are today. High school has shaped who we have become and I am proud to be a part of the Nauset community. Congratulations Class of 2014, finally we're free! And lastly, Shout out to Mrs. Kobold and Mrs. Blascio.

Some of the most important life lessons are learned in high school: I have learned to become a friendly and sincere person, I have learned that it does not matter who your friends are in high school because along the journey new ones are made, and most importantly I have learned that shooting for the impossible is never a bad idea. No matter what you choose to be in high school always remember to dream big, because if your dreams don't scare you then they are not big enough.

It was a long journey been at Nauset for all four years. At times the road was rough and sometimes I felt like giving up, but deep down I knew that failure wasn't an option. On the brighter side, I've been around some good and down to earth people. These four years have taught me lessons impossible to articulate. Hungry and foolish, I've fallen so hard in love with passion and my peers, that no amount of gratitude could ever grant all of the thanks I owe. I can't believe it's over. When people say high school flies by, they aren't kidding. My high school career at Nauset was shorter than the rest of my class because I transferred from Barnstable my freshman year... and it was the best decision of my life. I'd like to thank my coaches that have not only guided me on the football field but have also helped me grow as a man. My favorite experiences of high school have been with the football team, and without them I wouldn't have met my best friends.

I, Madeline Dexter, bequeath the stage to Morgan along with all the great memories and friends you will get from it.

It feels like just yesterday that we were all walking into a new school, terrified about that new experience. Now, being a senior, I realize I was kind of pathetic to worry. I made friends that I will never forget and those friends gave me the memories that made high school so great. So now that graduation is around the corner, I don't have to worry about walking alone. I have great friends to walk with me, hand in hand, to my next stage in life.

Without boring you with the details, I'd like to say that high school has had its highlights as well as its miserable, monotonous stretches. We've all emerged changed people for better or for worse, and now face the daunting task of simply moving on. As trailblazers, it is our time to charge into the hazy uncertainty of life ahead with no expectations for what comes next. Throughout high school, each and every student goes through so much in such a short period of time. Not to be imitative, but calling high school a rollercoaster is an understatement. We try to be so different from each other but, overall, we are all the same. Every one of us has done poorly on a test, missed a homework assignment, and even come to class "unprepared". Congratulations everyone, I hope you guys try your best to enjoy the next numerous years of life, no matter what you plan on doing. Thanks to everyone who supported and helped me through all my struggles and accomplishments.

I remember when I transferred to Nauset in 7th grade, being welcomed into the family and starting a new chapter of my life. Reflecting on my entire experience at Nauset makes me think how amazing it is that I have come along this far. What is truly learned is never forgotten. I hate this saying and love it too. I hate it because of all the definitions memorized, connections made, and meanings uncovered that rattle around in my brain, but that I can never recall with precision. I love this saying because it takes all of these pieces of knowledge and glues them together, because what I've truly learned is how to appreciate the world and the people around me. I have my teachers, friends, parents and especially the Music Department to thank for this ability, and I cannot express the depth of my gratitude.

I'm Erik Heilman. I switched into this school in 8th grade as a chubby, long-haired doofus. Now, I'm a not-so-chubby, decent looking doofus. I've had my ups and downs at Nauset but after four years of attending this school I have three things to say: 1. Never eat the chicken patties 2. No matter how bad things seem, remember that you're in High School. Don't stress out. 3. And lastly, you will grow to love everyone here more than you realize... I know I have, and I'm never going to be able to forget the people that I've grown up with here. I love you guys, don't forget it.

Nauset has truly been an amazing and unique place that gave me the ability to be myself and pursue personal goals academically, athletically, and musically. Simply, I was able to study what I wanted, be a part of an amazing music department, have unreal moments playing for the soccer team (even though I left to do that Revs thing) and cultivate some real and lasting friendships. Much love to my parents for doing everything to help me pursue my dreams. All of the best to Nauset and its students in future endeavors, and to the class of 2014, especially my boys (you know who you are) lets get it baby.

These past four years have flown by and I couldn't have asked for a better class to spend it with. High school has been fun while it lasted, but I wouldn't have survived without my friends and family. Thank you to my parents and my sister, Emily, for putting up with all of my shenanigans and being my support system. Corrinn, Jane, and Madeline I love you all to pieces; you all have stuck by my side at the start of high school and never left it. No matter what college I go off to next year, I will always be a Nauset warrior at heart.

At least 90% of this class has affected me in some way; you all have changed me for better or for worse. And maybe I've changed some of you too, but that's what high school is about. Everyone's goal in high school is just to get out as quick as possibly, but in reality, these last four years have formed each and everyone one of us and made us who we are. And the littlest action you might have made might have changed me, so thank you all, because even the worst will only lead to better.

Everyone comes away from Nauset with a different experience. My friends I wouldn't be here without: Emma Luster, Noe Reyes, Abby Slezak, Logan Roderick, Junior Chambers and Kyle Klock. Of course I would not be anywhere without the support of my amazing Mom, Dad, and loving sister Brianna sticking with me through the worst to the best.

I recall being a freshman, when all I could think was how cool it was that I was finally in high school. Frankly, I did not expect to learn what I did these past four years. As I completed each year, it didn't take long to realize that I need to view life as a gift - that I need to appreciate those who have pushed me through and show my deepest gratitude towards those who have taken my hands and walked me through the tough, joyous, memorable, and exciting times. Thank you wholeheartedly to Mom, Dad, and Lexi for every bit of support you've always given me. I'm leaving Nauset High School knowing that wherever life plans to take me, I am well on my way.

Honestly, I had a better time than anyone told me I would. Thanks to all the teachers that had enough passion to make me enjoy learning, but mostly all the custodians, bus drivers, lunch ladies and other staff who have to put up with high school stupidity and don't get to leave after four years. A big thanks to Kimmi and the folks, Grammy and GJ, and all my friends that I love so much for helping me through.

These past two years have gone by real quick. I love Cape Cod and the students at Nauset as well as teachers that have helped me and made my two years here memorable. Never would have thought that I would be where I am today and it's all thanks to my parents, friends and my awesome 2nd family and all the support I have gotten.

Being a Cape Cod kid means spending a lot of time at the beaches, a lot of time on somebody else's Netflix, and a bizarrely large amount of time in parking lots. It's strange and unique, but it's us. Thanks to Bhumi and Mads, I couldn't have asked for more awesome friends to be there through the good and the bad (tongue depressors). To my dance girls – I love you and the studio to death and I'm so grateful to have had you all as my family. Congratulations 2014 and best wishes with everything!

Michayla Kelly

I, Michayla Kelly, bequeath long, crazy Saturdays at the studio and a love of dance to Katie George, Danae Lenda, and Emma Stevens.

"We are born into the World
Like a blank canvas
And each person that crosses our path
Takes up the brush
And makes his mark

So it is that we develop

That we must take up the brush
And finish the work
For only we can determine
If we are to be
Just another painting
Or a Masterpiece"

I came into high school fearing the next four years. In reality they flew by and now I look at the freshman and I'm so jealous that they get four more years. I wish I didn't take high school for granted. Now I fear starting all over again and I will miss this experience. But I have had a lot of good times that I can always look back on. Thanks Nauset for always being there these past four years.

In his novel Cry, the Beloved Country, Alan Paton writes, "I shall do this... because life slips away, and because I need for the rest of my journey a star that will not play false to me, a compass that will not lie." Looking ahead, it becomes clear that all future pursuits will be possible only because of the constant companionship of my parents, friends, and teachers who have been unwavering sources of support throughout these years. Walking in freshman year, knowing absolutely no one at this school, I had no idea what to expect, and what was going to happen. Here I am four years later, after having met and made some of the best friends I could ever have asked for, wondering where the time went. The experiences I've had and the friends I've made here have been unbelievable, and I couldn't be happier or more thankful for the time I have spent here. Time flew by over these four years, and every moment, good or bad, was a significant part of the journey that's molded myself, and all of us into the amazing people we are now.

With no regrets, I will always cherish the memories and I look forward to the limitless future.

Although I have nothing mind blowing to say, I'd like to thank my friends for making high school bearable and I'd like to thank my teachers for making the last few years worthwhile. But most of all, I'd like to say thank you to my family for making sure I get up in the morning.

I have experienced the best four years of my life at Nauset. I thank my family for supporting and believing in me. I love Nauset, I would never be the person I am now and will be in the future if I didn't attend this school. I don't even have to name my boys, they all know who they are, and as to the girls, many crossed my path but my heart belonged to a girl named Jenna. I will for always hold love for the Jones family, they had my back to the max. Shout-outs to Mrs. B and Jody, you guys were my foundation, I love you forever. Also thanks to Mr. Evans, you taught me a lot of things that have helped me become a man. Also, a lot of respect and love to Mrs. Rojas, Mrs. Nahas and Ms. Cameron.

Even though high school can be really rough it goes by fast and before you know it, it's time to go out into the world. Nauset has made me a stronger individual giving me the opportunities to be myself and express myself. I want to thank my teachers who have helped me at Nauset: Mrs. Carpenter, Mrs. Grozier, Mr. Wright, Mrs. Mountain, Mrs. Bentz and Amy Martin for giving me a kick start when I really needed it. But most of all I want to thank my sister Angella Richards, who brought me from New York, enrolled me at Nauset and showed me a higher standard and a better way to live my life.

During these past four years at Nauset High School I have learned a lot, through education and about myself. One major thing that has stuck with me is to not care what others think about you, and to do what feels right to you. I have gained countless friends and memories that will cease to fade. Not every day on Nauset's campus was a walk in the park for me, but I would never trade my experience here for anything. Thank you Nauset, for giving me an unforgettable high school experience.

As overused the phrase "time flies" is, it has certainly proven to be true. These past four years have entailed massive amounts of hard work, decisions, and uncertainties. However, thanks to many of my teachers, friends, successes, and the clay room, my time at Nauset has been a wonderful experience. While I regret not getting to know many of my classmates, I truly wish everyone the best in the unpredictable years that lay ahead.

Well, looks like now it's just Nina and I against the world. And maybe some snacks.

Day by day an individual must move forward, maybe even take a few steps back. Life will hold us down, make us weak and sometimes tear us apart. It's the inner strength we have that can help us overcome every bump in the road. High school tore me apart at first, and through my freshman year I wanted nothing more than it to be over. Now that I'm finishing my last few weeks I want nothing more than to go back to enjoy it, and do my very best. If I have learned anything in the past four years of growing up, it's to fully enjoy every day to the fullest.

One of my best decisions in life was making the school choice option to come to Nauset for my high school career. These past four years flew by, but I couldn't have asked for a better experience. I'll miss my sea-side town, and all of the people in it. First, I have to shout out to my Harwich friends, of which we've been best friends since kindergarten Then on to the Average Joes, and finally the crew. I hope the best for Keely, and couldn't have asked for a better group of people and place to grow up around.

To my friends, I'm so grateful to have met each one of you. Rachel, Kristen, and Gomez, you guys are probably the three biggest weirdos I've ever met. But I wouldn't trade ya'll for anyone else in the world. So lucky to call you three my best friends, I'm going to miss you guys so much. Mom and Dad, you guys are the best parents around. Thanks for always believing in me. Ty, no matter where our lives take us we'll always have 12/1/18. To my girls on the soccer team you guys are gross but I love each and every one of you. I can't believe that senior year is here. Everything I wanted to do in high school I have completed. I wouldn't have been able to do any of it without the love and support of my Mom and Dad. As I close the book to one chapter in my life I will open a new one when I attend college in the fall of 2014. I can honestly say that I have met the most amazing people in high school and that I can say with a smile that they will be my friends for life. To Gavin and Erin I love you guys. Overall, I wouldn't change a thing about my four years at Nauset. I'm ready for the next four years of my life; it's been real Nauset!

High School has taught me - the meadow is the place to be, sunrise's at Nauset Beach are beautiful, No Scrubs is a must on every car ride, staples are tricky, ultra tree is never too tall to climb, Corporation swings are always open, bowling is better than any school dance, and "classic" can be used in every sentence. To my friends- these past couple of years will forever be in my heart, thank you for sharing them with me. To my Mom and Julie- thank you for everything you've done for me especially giving me the courage to leave it all, our fun times will always be continued. I love you.

These past four years have gone by faster than I expected, but throughout it all I made some of the best memories of my life with some great friends. I would like to thank my family for their constant help and support, in everything I have done. I couldn't have asked for a better group of friends throughout high school than the ones I made upon coming to Nauset Freshman year. Playing hockey for the school was a great time. We might not have always been the best boys but we always beat DY and that's what counts. I would like to wish everyone the best of luck in whatever you go on to after high school.

When I look back at my four years I spent at Nauset High School, I think of the good times and the bad times, the times I struggled, the times I prospered. I think of all the people I met along the way, the people that have come and gone and the people that are still in my life today, and also the ones that have passed away. The biggest lesson I learned was that life is what you make it. Every choice you make the big, the little will affect you in some kind of way, and whether or not that's tomorrow or not that's tomorrow or a year from now those choices will affect you so make sure there good ones.

Huge shout-out to the 'rents for making the last seventeen years of my life possible, it's been real. High school's a swell time, I've definitely become me over the past four years. Lucy, generic big brother talk: stay in school, don't do drugs, boys are icky. To everyone else, in general, just do you. Unless you're mean, in which case be nice. Also, prove people wrong. Finally, some junior has to step up and throw a dance in Miles' memory next year. It's the American thing to do.

KEVIN

by Abby Slezak

The day Kevin got back on his skateboard was the day I learned what love and strength truly are. Kevin got back on his skateboard with his brothers, Sean and Mike at his side. His face lit up with the biggest smile I'd ever seen. He was telling jokes as always and skating all around the park. This is what Kevin was fighting for the last two years. Every step of the way, from being diagnosed with Leukemia, to his bone marrow transplant, all the way to his double lung transplant, Kevin kept fighting. Kevin was not only strong for himself but also for his family and friends. Kevin blessed people with his goofy attitude and loving personality and inspired them. Kevin touched every single one of his friends hearts and left a lasting life memory.

"This has been a good year for the sophomore class. We definitely started out slow but more students are beginning to see the value in getting involved. Some students are realizing it is more than just about raising money for their class. Hopefully even more students will recognize this next year."

School Within a School

SWS

"Extending Learning to The Community and Beyond"

School Within a School, or more commonly know as SWS, is an alternative program offered to the juniors and seniors at Nauset Regional High School. Teachers, Diane Keon and Karen Novacon, Julie Quigley and Paul Davies, enthusiastically teach core and elective subjects in a more creative, individualistic manner. SWS stresses the importance of a project and field trip based environment. The program offers many excursions for students to experience innovating topics outside of the classroom.
An Enrichment Seminar is also required in furthering the integration of History and English within an SWS course.

Juniors Lexi Griffin and Maggie Palmer pose for a candid.

Nauset's Stars

Nauset Drama put on two plays this year, Hello Herman and Midsummer Night's Dream, and a musical, Legally Blonde. Hello Herman was the play chosen for the off Cape competition. It won two acting awards; Maddie Dexter for her performance as a news anchor and Jonas Greenblatt won for his role as a journalist. Another award went to Morgan Dexter for her role as stage manager. Playwright John Buffalo-mailer attended the Nauset players production and shared his experience with the play after it was finished. Midsummer Night's Dream is a fun comedy performed early in the year.

The Sounds of Music

All Cape and Islands

Nauset Regional High School travels to the All Cape and Island Festival under the direction of Ned Rosenblatt. High school students from all over Cape Cod audition in November for a prestigious place in the All-Cape Chorus, Orchestra and Band. Hundreds of students from Falmouth to Provincetown come together and sing or play music like they have known each other for years. All Cape and Islands is a wonderful event to participate in and an incredible experience to have. Our music program without a doubt is outstanding and we knew our music student would succeed with enthusiasm. This year, fifty-six of our Nauset Regional High School students auditioned successfully! What a great year for the All Cape and Islands Music Festival.

In Perfect Harmony

The Nauset Music department has been extremely successful in all events in which they have performed. The program, as a whole, works incredibly well together and are able to achieve greatness. Due to the outstanding improvements of the department they have been given the opportunity to compete in competitions around the country. Last April they traveled to Atlanta, Georgia and as a team won eleven trophies and six plaques for their accomplishments. This year the team of band, chorus, and orchestra traveled to New York City to perform in front of hundreds.

Sophomore Joy Pie, the only french horn player, plays during Nauset's Pep-rally in September (above).

Senior, Jenny Leyton, practicing her violin in orchestra class (left).

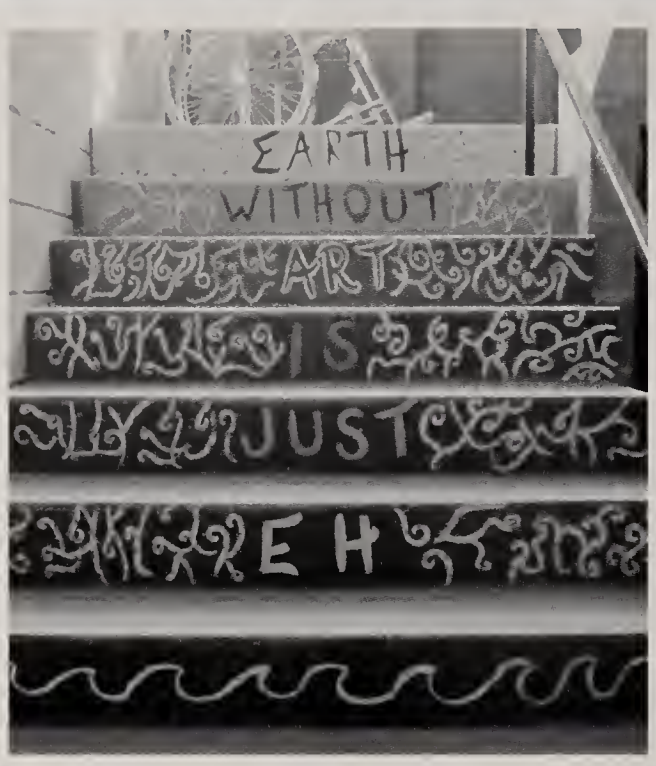
"Nauset Music, whether it be band, orchestra, or chorus is a really unique and rewarding program that helps you expand your musical talents as well as make friends and have new and fun experiences."

- Bruce Johnson (senior)



Sophomore Ben Hull shows immense skill and precision with the power saw for a project in Woodshop (right).

Junior Jane Marks works diligently on her clay creation during a class of wheel throwing (below).

Creativity Within

Nauset Regional High School is known for it's incredible and innovative Arts. A wide variety of courses are offered, such as Culinary Arts, Print-making, Fashion Design, Guitar Building, Clay, Drawing and Sketching, Jewelry Design, Photography. Every student entering Nauset is given the opportunity to let their creative, individualistic natures shine through.

> **"Electives like Jewelry really relax me and it's fun to learn new techniques!"**

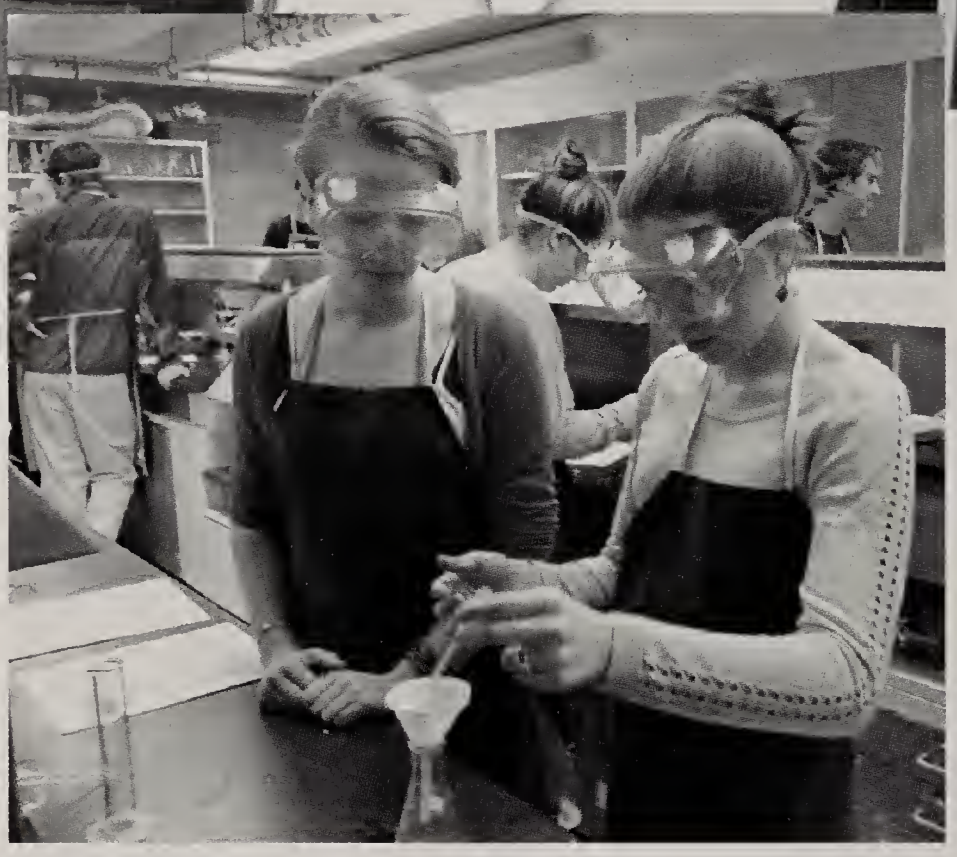
Each day the Federal Reserve Bank shreds approximately 10 million dollars worth of worn out currency and 314 tons of currency are recycled each year alone. Student are challenged to create an original piece of art from shredded money.

In Fashion Design class, students create clothing designs and display them at the annual May Fashion Show. Senior, Leslie Travers, precisely cuts her custom made dress with a rotary blade. Finished dress shown in upper right photo.

Science & Beyond



The Nauset Science Department is an outstanding department that has diversified it's offerings for students. The science department offers over 30 classes that include mandatory classes prior to graduating and other electives such as robotics & engineering, criminology & oceanography.

Helping the Community

in their own special way

Nauset students are known for giving back to the community. Each year, students improve our community in a variety of ways; volunteering at the hospital, working with young children, beautifying our environment and more. Students who earn 100 or more hours during one school year receive Century Club recognition and for 40 hours they earn the Silver Club. Although there are many Nauset students contributing in many creative hours, we have highlighted the top three from each class. **Congratulations and thank you to everyone lending a hand.**

SOUTH AFRICA

A trip of a lifetime

On April 16th, twenty-five students and four teachers embarked on a journey that will not soon be forgotten. It all started a year ago, when Ryan Rudewicz started planning the trip with Mrs. McMillin and Mrs. Smith. After, a year of planning, fund-raising and a dinner at Karoo in Eastham, everyone was ready to get on the eighteen hour plane ride to South Africa!

The group traveled to Johannesburg first and visited the Apartheid Museum, the township of Soweto and saw Nelson Mandela's old house. A safari in Kruger National Park was next on the itinerary to see elephants, cheetahs, and giraffes, oh my! After Kruger, the students hopped on a plane to Cape Town and made life-long memories. A hike to the top of Table Mountain, a ferry to Robben Island and even a day in a local village to play which was everyone's favorite part. Nauset students had raised $1.200 to help with this village.

Breathtaking views. Looking down on Cape Town, from Table Mountain.

ROME, ITALY

A World Away

by Caroline Codair

February 12, 2014, twelve students embarked on a full day of travel headed toward the eternal city of Rome, Italy. Even in the short time we spent at this beautiful place we were able to experience so much. As soon as we finally arrived in Rome we began the start of our tour. While there, we saw the Trevi Fountain, walked the Appian Way and witnessed Pope Francis' blessing Sunday morning. We took part in bartering with the street venders, looking in amazing museums, indulging in gelato and getting the feel for the Italian lifestyle when cramming onto public transportation. The artwork and scenery we saw was absolutely breathtaking. Each student gave a short presentation on artwork and the ways of life of the ancient Romans as well. Having the chance to take part in this trip was something that all who came will certainly treasure forever.

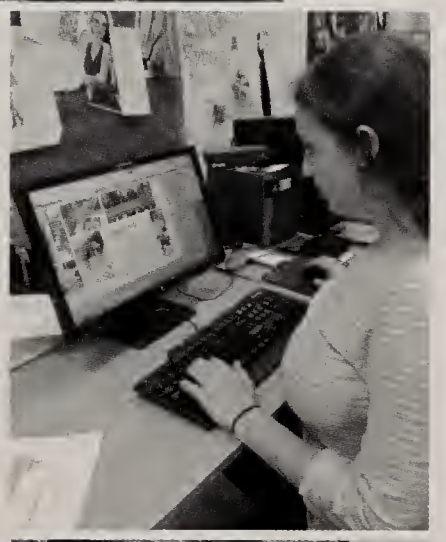
YEARBOOKING

There is light!

After a long year of collecting materials, designing and proofing pages, the 2014 Yearbook is complete. The Yearbook is not only a class but a group of students working closely together all year.

The yearbook project could not be accomplished without the help of many others. We give our thanks and to those people whose efforts have made the yearbook possible. Special appreciation goes to teachers, parents, seniors, office staff and photographers, including Mrs. Duroucher for our cover and beautiful scenic photos, Abby Grattan and Anton Anderson for sports photos, and many students for their generous supply of information and photos.



Editor Maddie O'Hara (above) and co-editor Julia Taylor (below) working after hours.

MRS. BUTTS

Mrs. Butts has been teaching at Nauset for over twenty years. She started in the English department and then moved to History which is her true passion. She teaches AP U.S. History and has expanded the enrollment of this difficult course substantially. Her students' scores are among the highest in the school consistently. She is a tireless teacher who often grades papers late into the night. When she taught Amazing Asia, she actually took a tour of Asia so that she could understand the culture in-depth before presenting it to her students. She has been awarded "Teacher of the Year."

In her own dignified, calm and professional manner Mrs. Butts has provided a steady leadership that needs little voice, because her actions speak so loudly.

It is with great honor and pride that the Class of 2014 dedicates the Yearbook to Mrs. Butts.
